

FOR IMMEDIATE RELEASE

Macon Family Practices Join Forces with “The Doctor’s Office LLC” to Provide Full Spectrum of Services

ATLANTA, GA, February 6, 2006 – Recognizing the benefits of combining excellent health care services, Dr. Donna Groover has joined forces with Georgia-Based “The Doctor’s Office, LLC” (TDO).

The Macon-based practice will continue to provide the same quality of care, but will add more services and technologies in-house under the TDO umbrella, such as in-house lab testing, on site x-ray, occupational medicine, and an in-house pharmacy. “We are excited about joining The Doctor’s Office because of the quality of care they provide, and because we could enable our patients to get more of the care they need all in one Macon location,” explains Dr. Donna Groover, MD.

Dr. Groover’s practice will also receive an operational upgrade from the merger. An electronic medical records system will be implemented, enabling charts to be accessed easily and securely both in the office and remotely. The system creates a digital patient chart, including, doctor notes, medication refills and lab results. The EMR also interfaces with the practice management system, diagnostic equipment and transcription services, creating a seamless experience for both patients and providers.

“Providing personable and high quality care are important to us,” explains Dr. Donna Groover. “The great part about joining TDO is that we still know our patients, and care for each one individually, but we now have access to resources that will enable us to be more efficient and additional services that will significantly improve patient care.”

The new Macon Family Practice Office is located at 4310 Harley Bridge Road in Macon, GA.

About The Doctor’s Office, LLC

The Doctor’s Office, LLC prides itself in being a true family practice and treats patients of all ages, from infants to grandparents. Its doctors and mid-level providers take the time to listen to their patients and to carefully explain the problem and treatment options. Its goal is to provide excellent patient care by offering the benefits of proactive and preventative medicine to improve the health of the entire family, and for community employees through their Occupational Medicine Program.

The Doctor’s Office, LLC is managed by Quality Physician Services (QPS), a full-service medical management and service organization. For more information, visit <http://www.TheDoctorsOffice.ws>.
